# Academic

Academic Scholarships at Strathallan School are awarded on the basis of a series of assessments and interviews.

Scholarships are awarded to both recognise outstanding academic ability and develop future potential through a structured scholarship programme for the duration of a scholar's time at the school.

Scholarships not only lift the performance of scholars but, through the academic leadership we expect of scholars, lift outcomes for all pupils in the school.

Successful candidates for scholarship will demonstrate a high level of academic ability, also the potential to develop this further, the attitude to learning and intellectual challenge commensurate with the highest academic standards relative to their age, and a natural interest in and passion for the area of their academic study.

Successful candidates will be expected to embrace the academic opportunities that the Scholarship Programme offers by engaging fully with the following:

- **Our series of Humanities and STEM-based lectures, seminars and workshops;**
- **The annual Academic Essay Competition;**
- **The academic outreach work of specific academic departments;**
- **Entry into external academic competitions, as appropriate;**
- **Regular meetings with the Scholars' Coordinator to discuss individual academic progress and targets;**
- **The Annual Scholars Lecture (and dinner that follows).**

For Third Form, the Academic Scholarship Assessment comprises

1. A full report and reference from the candidate's current school in advance of the assessment day
2. A 90 minute online cognitive abilities assessment
3. Assessments in English and Mathematics
4. Assessments in TWO further subjects from the following: Combined Science, French, Geography, History or Latin.

Interviews with the Head of Academics and Scholarship Coordinator will be part of the process also.

The Headmaster may also choose to interview some of the candidates.

The academic scholarships programme is tailored to individual needs and features:
