Opportunities for all to excel

Information for Year 1 & 2 Families

Welcome to Strathallan Prep

We're a close community, small enough for everyone to get to know each other whilst benefiting from the extensive facilities of the 'big school'. Pupils join us from the local community and from all over the world, and we take our responsibility as a fun, supportive home-from-home very seriously.

We've invested in all areas of the school since our launch in 2020 and are proud to host some of the best facilities in Scotland. We were the first Scottish school to join the Pre-Senior Baccalaureate, were recognised for the quality of our Science teaching with the Primary Science Mark and have been awarded the BSA Award for Boarding Innovation. Our pupils enjoy the expertise of dedicated primary school teachers and the specialist input of subject teachers from the senior school. It's the perfect balance of small classes and big resources: an idyllic place they can call their own while taking full advantage of the incredible resources right here on our doorstep.

All of this helps to create an exceptional educational experience for every one of Strathallan Prep School's pupils. The scale and quality of teaching and activities provided allows every pupil – day or boarding – to broaden their skills and discover new things they'll love. Most importantly, Strathallan Prep is a happy, vibrant place to learn, full of music and laughter, where children are carefully nurtured for the experiences that await in senior school and beyond.

Strathallan Prep School

Strathallan Prep pupils enjoy the expertise of dedicated primary school teachers and the specialist input of subject teachers from the senior school, all whilst benefiting from small teacher to pupil ratios of between 12-14 per class.

All of this helps to give Strathallan Prep School's pupils an exceptional educational experience. Specialist teaching provides a deep insight into each subject, while the scale and quality of the activities programme provided allows every pupil – day or boarding – to broaden their skills and experience and discover new things they'll love.

Where children can be children

While the scale of our activities programme is a huge benefit to our junior pupils, we never forget that children need time to create their own games and adventures, learning as they play.

From kicking a ball around with friends to den building in the woods, our rural campus is a wonderful playground that children adore.

Riley House

Riley House is our home-from-home for both day and boarding pupils, and we work hard to promote a caring environment where we all look out for each other and ensure everyone knows who to ask for help. As a result, our pupils are confident, eager to try new things, polite and well mannered. We listen to them and ensure that they're happy and well looked after every day.

In Riley, we focus on creating a safe and stimulating environment where children can learn, have fun and enjoy spending their time. Both boarding and day pupils can use our indoor facilities including the main common room, TV lounge, games room, quiet areas and snug.

“In Riley, there is a commitment to helping pupils discover what inspires them. No pupil is forced to participate in activities they are not interested in. We suggest activities and they try things until they find programmes that they enjoy and wish to pursue.”

The Year 1 & 2 Day

Monday - Friday
